

REvolutionary Automotive Detail Solutions

REVvive by RSG Hyper Concentrates are ULTRA-CONCENTRATED automotive detail solutions that eliminate the need for any dilution system, saving space and reducing the chances of mess. This new technology transforms bulky, 5 gallon concentrates into low viscosity, 64 oz. containers that stay uniform in the bottle allowing you to pump without having to shake the bottle.

One 64 oz. REVvive by RSG Hyper Concentrate container holds enough solution to fill 96 spray bottles and reduces the size from a traditional 5 gallon jug, into a more space saving size.

64 oz. = 5 Gallon Bucket
